

Coronavirus (COVID-19)

Dear Patients,

At Berardi Aesthetics and Plastic Surgery.....

YOUR HEALTH AND SAFETY IS OUR #1 PRIORITY

We want to assure you that we do not have any COVID-19 patients or staff at our practice.

To avoid disruptions in patient care, we are continuing to allow appointments to ensure you are provided with exceptional and safe care.

Please be assured we are closely monitoring developments and implementing several safety precautions across our practice:

We are following the advice and guidelines set forth by the CDC.

Our team is on high alert to prevent the spread of infection. We are continuing with our stringent sterilization procedures to vigorously disinfect and sanitize our patient areas (all surfaces, door handles, exam rooms, etc), declining handshakes, and keeping the recommended distance between people.

Additionally, when you enter our practice, you will immediately be brought to an exam room to eliminate being in the presence of other patients.

As the Coronavirus and its impact continues to evolve and develop, we remain focused on the health and safety of our employees and our communities, and especially our commitment to you, our patients.

Please follow these guidelines to ensure we all stay safe and protect each other:

Please reschedule and stay home if you're not feeling well, have recently traveled abroad or have been exposed to someone with symptoms.

Wash your hands frequently and for at least 20 seconds with soap and water every time, every touch and use hand sanitizer

Do not touch your face.

Please have great confidence when you come in for an appointment that we are doing everything we can to ensure our clinic is safe for you. We are closely monitoring the World Health Organization (WHO), the Centers for Disease Control and Prevention (CDC), and local health agencies for the latest developments related to COVID-19 and following the guidance of government and public health officials. We are reinforcing these agencies' recommendations on the appropriate health and safety measures with our patient's health of utmost concern. Those who have come in close contact with a COVID-19 patient do not need to be tested unless you develop symptoms.

Our hearts and thoughts go out to the people who have been affected by this unprecedented event and we appreciate the healthcare workers, local communities, and governments around the world who are on the front line working to contain this coronavirus. Please know that we are vigilantly monitoring the COVID-19 situation around the clock and have precautions in place to ensure a healthy visit to our practice.

If you have any questions about the Coronavirus here is the link to the CDC's designated website for the virus. <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

Please call 480.502.4567 if you have any questions or concerns.

We have an amazing, talented, and resilient team to take care of you. Together we will get through this.

Please take every precaution to remain in good health.

Kind Regards,

Joseph C. Berardi, MD
